Associated Press.

WASHINGTON, MARCH 6.—THE FOREIGN DIPLOMATIC CORPS IN MEXICO CITY HAS DECIDED TO LEAVE IN A BODY. DISPATCHES TELLING OF THE DECISION WERE RECEIVED HERE TODAY BY EUROPEAN DIPLOMATISTS AND FORWARDED TO THEIR HOME GOVERNMENTS. THE MEXICAN SITUATION, TOP-

PED BY THIS LATEST DEVELOPMENT, WAS ADMITTED IN ALL QUARTERS TO BE MORE CRITICAL THAN IT HAS BEEN AT ANY TIME SINCE HUERTA PRECIPITATED THE LANDING OF TROOPS AT VERA CRUZ.

SECRETARY BRYAN HAD RECEIVED NO WORD FROM THE LATEST REPRESENTATIONS TO CARRANZA AGAINST GENERAL OBREGON'S DECREES IN MEXICO.

CITY AND HIS THREAT TO LEAVE THE CAPITAL UNPROTECTED, WITH WATER AND LIGHT PLANTS OUT OF COMMISSION, AND THE ATTENDANT POSSIBILITIES OF LOOTING AND KILLING.

VILLA HAS INVITED THE DIPLOMATIC CORPS TO JOIN HIM AT HIS CAPITAL IN CHIHUAHUA. TO CRUZ ARE REFUSING TO PERMIT DO SO, IT WAS POINTED OUT, TRAVEL ON THE PRETEXT THAT THE ROAD IS NEEDED FOR MIL-

ITION OF HIS FACTION.

WITHOUT DIPLOMATIC REPRESENTATIVES IN MEXICO CITY THE CAPITAL AND A LARGE PORTION OF THE DISTRACTED COUNTRY WOULD PRACTICALLY BE CUT OFF FROM THE WORLD.

CARRANZA FORCES CONTROLLING THE RAILROAD TO VERA CRUZ ARE REFUSING TO PERMIT DO SO, IT WAS POINTED OUT, TRAVEL ON THE PRETEXT THAT THE ROAD IS NEEDED FOR MIL-

ITARY MOVEMENTS.

SENATOR SMITH, OF ARIZONA, CALLED AT THE WHITE HOUSE TO DISCUSS THE LATEST DEVELOPMENTS IN THE SITUATION WITH PRESIDENT WILSON, BUT

WILL NOT SEE HIM UNTIL MONDAY.

"WE SHOULD TAKE CHARGE OF THE ONE THAT RELIEVED THE MONROE DOCTRINE," SAID HE. THE BOXER UPRISING WAS BEING TALKED OF.

AMONG DIPLOMATS THE OPINION PREVAILS THAT IN CASE OF GENERAL OBREGON'S CONTINUING TO REFUSE OUTSIDE AID DRAMATIC STEPS MAY BE NECESSARY.

IN OFFICIAL CIRCLES AN ALIED EXPEDITION SIMILAR TO THE LEGATIONS AT PEKING DURING THE ONE THAT RELIEVED THE MONROE DOCTRINE," SAID HE. THE BOXER UPRISING WAS BEING TALKED OF.

## BIG STEAMER BURNING FIERCELY IN MID-SEA

Lives of 284 Persons in Grave Danger on La Touraine, Which is Laden With Tons of Ammunition.

Associated Press.

London, March 6.—The steamer La Touraine is afire at latitude 48.06 north and longitude 20.14 west, according to a wireless message received here. Five steamers have been sent to the assistance of the La Touraine, which is "fierce." Otherwise this message is a repetition of the one received by Lloyds from the wireless station at Valencia Island.

The La Touraine is said to have first cabin passengers and 46 steerage passengers on board. Her crew is thought to number about 100. The message telling of the fire was received by Lloyds from the wireless station at Velentia Island. In addition to giving the position of the La Touraine it stated that the steamer had started from Amsterdam, Swanmore, Cornishman, and others were going to her assistance.

The French liner sailed from New York February 27 for Havre. The position given in the message is approximately 1200 miles west from port of destination. Among the passengers are five doctors and nine nurses on their way to France to be attached to a new war hospital.

New York, March 6.—When the La Touraine sailed from this port Saturday she had aboard 84 passengers, of whom 38 were in the first cabin and the remaining 46 were in steerage.

At the local offices of the French press it was said this morning that no information regarding the Touraine had been received. Maritimales, however, received word from abroad that all the passengers and crew were safe, but this information was not confirmed here.

On board the Touraine were 4,594 cartridges for use in the European war. The crew numbered approximately 200. Captain Causse was in command. Two wireless operators were aboard. Stored away in the vessel's hold was the ammunition, which caused keen apprehension.

## 47 MINERS SURVIVE ENTOMBMENT IN SHAFT

By Associated Press.

Hinton, W. Va., March 6.—47 miners were found alive today in an entry of No. 3 mine in the Layland mine of the New River and Pocohontas Coal Company, where they had been entombed since last Tuesday, when a gas explosion wrecked one mine and seriously damaged two others.

About 170 men, as far as could be checked up, were thought to have lost their lives, and thus far 78 dead bodies have been taken out. Hope to reach the remainder of the entries abandoned.

All, apparently, were little the worse for their four days' entombment, beyond a somewhat weakened condition. All haste is being made for any of the remaining miners was in hopes that many others will be found still living.

This morning rescuers found five men alive, but in a weakened condition in an entry of No. 3 mine. These men were able to walk from the mine and they reported that nine others were alive not far from where they were found. The rescuers hastened their efforts and soon came upon more of the living miners.

All, apparently, were little the worse for their four days' entombment, beyond a somewhat weakened condition. All haste is being made for any of the remaining miners was in hopes that many others will be found still living.

He spoke of a third possibility, namely that if the war should be a long one, to the exhaustion of the belligerent powers, it would be inevitable that the United States would gain the ascendancy, in which event he thought pressure would be brought to bear upon Japan by the United States.

Korehiro Kurahara, a member of Parliament, also spoke. He asked why the Japanese people acted as if war were brought to an end with the fall of Tsingtao. The present, he said, was a most critical period for Japan, and it was the duty of the nation to give full play to the Yamato spirit characteristic of the Japanese people and to dispatch troops to Europe without delay.

Brunswick, Ga., March 6.—Four men were shot and killed and five others seriously wounded here today by Monroe Phillips, a lumberman, who fired at random on the street. Phillips himself was killed by a policeman who sought to arrest him.

Wilmington, Delaware, March 6.—In a running fight here today, after a suspicious man, whose appearance attracted attention, Frank Tierney, a policeman, was shot and killed, one policeman was mortally wounded, two others were seriously wounded and another man slightly hurt. The desperado, along with a companion, was captured.

Shiroku Kuroiwa, editor of the Yorodzu, a newspaper which has been active in support of the plan of sending troops to Europe, declared in a speech at the meeting that if the present war should end in victory for the Germans, the future of Japan would be in danger. He held it was most important that Japan should do all in its power to avert such an issue. He also said if the County Commissioners, Mr. M. L. Craig's court Friday afternoon, terminated in the young man being bound over to the grand jury in the sum of \$300, and J. W. Haigler became his bondman.

A number of witnesses, including the prosecuting witness, were placed on the stand in the case, and the fact established that the man had failed to properly support his wife, whom he married some five weeks ago when his arrest was caused by the young woman. Both parties are residents of Paint township.

**Wilson About to Address Notes of Inquiry to Allies.**

## CONCERN BLOCKADE POLICY

Communications Will Leave No Room For Doubt in the Minds of the London and Paris Governments as to the Adverse Views of the Washington Administration Toward the Anglo-French Announcement.

Washington, March 6.—The United States government will at once address to the British and French governments notes of inquiry regarding operations proposed under the general blockade policy communicated to neutral governments last Monday. Though this latest communication is described as an inquiry, it will be of such a nature as to constitute a comprehensive presentation of the position of the United States with regard to the allies' new maritime program. There will be no room for doubt left in the minds of the British and French governments as to the adverse views of the United States government toward the Anglo-French announcement.

It had been intended to delay such an inquiry pending the receipt of the British reply to the American suggestions to both Great Britain and Germany on the war zone situation. It was also thought that this action by the United States might as well be

postponed until the issuance of the British orders in council which, the British have stated, will clear up many of the questions now in doubt regarding the new policy of cutting off trade with Germany.

However, since there is as yet no indication as to when the British reply to the American note will be forwarded or when the promised orders in council will be forthcoming, the decision was reported to make inquiry. This inquiry will be sent forward as soon as a proper communication to this effect can be drafted. This will not take long, as officials of the department of state have been giving careful consideration to the situation for nearly a week.

While it is desired by this government to learn from Great Britain precisely how she intends to treat goods in transit to and from Germany on the high seas under the new policy, the United States also hopes that an inquiry may elicit from the British some statement of the grounds upon which the new program is to be justified from their point of view. Thus far the British and French have endeavored to make no legal argument in support of their proposal to cut off all trade with Germany, basing their announcement wholly on the ground that the extra-legal acts of Germany justified these reprisals by her enemies.

This defense of the new policy does not at present interest the United States government in the least, as it holds that this country can take no cognizance of what one of the belligerents may be doing to its enemy, except as it affects the United States. Nor does it accept the claim of both parties to the conflict that illegal acts by their enemies justifies them in throwing aside all law.

The position of the United States is that whatever may be the relations between the belligerents in regard to the law, legal principles still govern the relations of the United States to all the belligerents, and in defense of its neutral rights it proposes to hold all the belligerents to the observance of the principles of law so far as their operations affect American interests.

## JANE ADDAMS RAPS AMERICAN LEGION

New York, March 6.—Miss Jane Addams, before members of the Women's Peace party, referred to the American Legion as "not only absolutely unnecessary, but shocking."

"There never has been a time," continued Miss Addams, "when the United States has been so safe as it is today, partly because the warring nations are too busy dismembering each other to pay any attention to us and partly because as their own resources decline ours go up. To start a project like the American Legion with the purpose of preparing everyone for war is wrong."

Killed In Chicago.

Marion, O., March 6.—Patsy Bruscino was lured to Chicago and slain. He was chief of Marion's large colony of Italians. About a year ago he was shot by Pietro Dimarzio, now held in Chicago as his slayer.

## SAY EVELYN NOT MISLED

Washington, March 6.—The charge made in an official statement issued by the German embassy that the American ship Evelyn was sunk by a mine through following the directions of a British man-of-war was officially repudiated at the state department in a message from Ambassador Gerard at Berlin. The ambassador reported that Naval Attaché Gherardi of the embassy has brought to Berlin from Bremen the statements made by the captains of the Evelyn and the Carib, the other American ship sunk by striking a mine, and that these statements declared that the vessels had not been the victims of false directions given by the British. The captains of both vessels declared that they had simply run into the mine fields and had encountered mines.

### New Seaman's Law Hits Treaties With Twenty Nations.

Washington, March 6.—The fact is just beginning to dawn upon Washington officials that the new seamen's law enacted in the closing days of congress in response to the pressure of organized labor threatens this government with grave embarrassments in its foreign relations and imposes a burden upon American shipping.

The state department has not determined yet all of the possible effects of this legislation upon existing treaties, but it seems certain that this government will be obliged to abrogate at least parts of its commercial treaties with most of the great nations of the world. In all probability twenty treaties will be affected.

But this abrogation of existing treaty rights is not the most serious phase of the legislation. It aims to exercise control over the rights of alien sailors on foreign vessels when in American ports, which are sure to lead to resentment and probably retaliation by some of the European governments affected.

Senator Burton of Ohio, who stubbornly resisted the enactment of this legislation, is authority for the statement that European governments already have protested against some features of the legislation.

An official of the department of commerce, in commenting on the bill, expressed the opinion that it would be to the shipping interests of the United States what the application of the full crew laws were on American railroads. The prediction was made that under its operation it would be difficult to man American ships in accordance with the act.

## "SUNRISE SLUMBER" TREATMENT SUCCEEDS

Columbus, March 6.—There are in Columbus today fifteen babies born under the new method, known as "sunrise slumber," and there are fifteen mothers glad to tell of its virtues. These facts became known when it developed that Dr. C. E. Turner and Dr. W. I. Jones, after satisfying themselves of the efficacy of nitrous oxide-oxygen as the anesthetist, have begun to make investigations in Cleveland, Cincinnati and New York to see what, if anything, has been done along the same line.

It appears that Cleveland and New York have each had a few cases and that their experience exactly bears out that of the Columbus practitioners. Dr. Turner is in charge of the obstetrical work at Mt. Carmel hospital and Dr. Jones is an anesthetist and the leading advocate of the general use of nitrous oxide in this city. Together they have worked out the treatment.

## End Of The Sixty-third Congress

The Sixty-third Congress of the United States came to an end Thursday. The "Late" Congress has been a memorable one both on account of quantity and quality of legislation enacted, as well as the unusually long time it was in session either regular or extraordinary.

Most business men of the land, both the men of large affairs and the men of small affairs, are heartily glad that the session is ended. The country has, for the present at least, enough new laws to wrestle with, to construe and with which to become familiar in everyday life and business.

There is no doubt that great need for the enactment of new laws existed at the time the late Congress was entrusted with the duty of making new laws and remodeling old laws. Neither is there any question that the late Congress has done a great good work. The new currency law is fundamentally sound and has already furnished proof of that in averting a financial panic in spite of the fact that the nation is just emerging from one of the most demoralizing and discouraging periods of industrial depression in the history of the republic.

As to the wisdom of the tariff legislation there is still room for argument, largely because conditions with regard to foreign trade have not been such as to afford an opportunity for a real test of its wisdom.

Many leaders of note in the Sixty-third Congress have been elevated to broader and more important fields of labor by their constituency. Many others will remain in the House in the Sixty-fourth Congress and some of the members who made in on the tidal wave of votes which marked so many vital changes in the political geography two and four years ago will return to private life.

Some of the old faces absent in the Sixty-third and Sixty-second Congress will be plainly visible in the new Congress, notably "Uncle Joe" Cannon, McKinley and Longworth—our own Nick."

It will be interesting to observe just what course "Uncle Joe" Cannon, for so long speaker of the house, will take now in the capacity of just an ordinary member on the minority side, too.

Of course, we can all see, now that it is over, a number of things the Sixty-third Congress could have done and a number which it could have left undone with credit to itself and the good of the country, according to the individual opinion, but on the whole the Sixty-third Congress has done exceptionally well under very trying circumstances and conditions.

A great majority of the American people think that Congress should have enacted the ship purchase bill so urgently advocated by President Wilson, but Congress held a different view and that one instance is the sole and only one in which the Sixty-third Congress differed radically, in final action, from the views of the Chief Executive.

People were glad to have the Sixty-third Congress convened and they are glad to have its session brought to a close and in happiness which comes on account of its close everybody willing to congratulate Congress on the good it has done and forgive it for its omissions.

## United States Cannot Have Prosperity to the Detriment of the World

By FRED I. KENT, Noted New York Banker

THE effect upon our foreign trade in its relation to other countries is a matter of great moment to this country. At present we are trying to replace the certain markets which we had in Europe for uncertain markets in South America.

We may be able to supply South America with many goods while the war lasts that England and Germany may be better able to sell them after the war is over. SUCH TRADE WE CANNOT HOPE TO KEEP, AND IT WOULD BE AN ECONOMIC WASTE FOR US TO DO SO.

Competition will ultimately decide which countries supply other countries of the world with certain goods, but such competition should only be based upon natural ability and resource of manufacture and production and not upon force.

The world must come to such condition ultimately, and each country will give that which it is best fitted to give and receive that which is least able to produce. While we must all strive for the world's markets in a legitimate way, we must not forget that there will be a sure coming if we attempt to override such markets.

THIS COUNTRY CANNOT HAVE PROSPERITY TO THE DETRIMENT OF THE WHOLE WORLD, BUT THE WHOLE WORLD CAN HAVE PROSPERITY TO THE GREAT BENEFIT OF THIS COUNTRY.

## THE DARDANELLES.

I've always longed to view the spot  
Where bold Leander  
Breasted the wave to Hero's grot,  
Defying slander.

Yes, ever since I was a boy  
My fancy's beckoned  
Across the storied plain of Troy  
That Homer reckoned.

And, oh, to see where Xerxes led  
His legions fabled;  
Where Alexander fought and bled,  
Killed and disabled.

Then next my bark in fancy plies  
(At dawning it is)  
To where enthroned in gold there lies  
The pearl of cities!

But from the recent news we've had  
It must be hot there,  
And I confess I'm rather glad  
That I am not there.

## GREENFIELD WILL PAVE MAIN STREETS

At a special session of the Greenfield council Friday night action was taken toward paving the streets in the business part of that town beginning early this spring.

It is the intention to pave the two main streets for quite a distance through the main part of the city, and brick will be used in the work, it is understood, although there is some agitation for asphalt paving.

## NEW BRIDGES TO BE BUILT

The Ross county commissioners have issued notice that two new bridges are to be constructed over Paint creek in Ross county, one is at Frankfort, and the other at Crooked Bridge.

One of the structures may be of concrete, while the other will be of steel.

## Postage Stamps.

The American public consumes 40,000,000 postage stamps per day. By the ordinary methods of printing postage stamps this process costs the government a tremendous sum annually. By the invention of one machine by the officials of the bureau of engraving and printing the cost of manufacturing stamps has been reduced 57 per cent. The new stamp machine eliminates nineteen of the operations in making stamps, goes through twenty-one different operations of its own and turns out 4,000 completed stamps per minute, 2,400,000 in a ten hour day.

Every advertisement should say something people would like to know about goods they would like to possess.

COMMITTEE NAMED TO CIRCULATE PETITION TO ASK COUNCIL FOR BETTER APPROACHES TO SCHOOL HOUSE — INTERESTING MEETING OF PARENTS — TEACHERS CLUB LAST NIGHT.

The second monthly meeting of the Parents and Teachers club of Cherry Hill was held at the school building Friday evening.

Notwithstanding the bad weather the meeting was well attended by enthusiastic parents and teachers.

Mr. Fitzgerald, the president, called for report of the secretary, Mr. Troops, and the report showed that out of 20 people appointed as visitors for the past four weeks, sixteen had each devoted from a half day to a day and a half visiting the various rooms.

Miss Louise Fultz favored the meeting with two piano solos and the rendition and interpretation of them by Miss Fultz was equally excellent.

Mr. McClain was then called upon to make a brief talk on some timely topic. He chose the all important theme, "Education," emphasizing the hour was spent.

## POLICE MIXED ON PROCEDURE

**NO ARRESTS HAVE BEEN MADE IN A CASE INVOLVING EXCEPTIONALLY UGLY FEATURES, ALTHOUGH RUMORS HAVE BEEN CURRENT FOR TWO DAYS.**

Disinclination of the police to take the initiative and a doubt about the proper course to pursue and the proper judicial tribunal in which to launch prosecutions bids fair to result in allowing parties, if informal charges are true, guilty of crime to escape the punishment which the law provides in such case.

For forty-eight hours the police of Washington have been in possession of information which would justify them in setting the criminal machinery of the courts in motion, but nothing has been done so far as causing arrests to be made.

Deputy Sheriff Blue and Patrolman Baughn made an automobile trip Friday night in quest of Tropic Shoemaker, carrying a warrant from the probate court for his arrest on a charge of contributing to the delinquency of Bertha Lyons, 14, of Gregg street, this city.

It is charged by the girl's father, M. T. Lyons, that Shoemaker, in company with George Green and wife, took the girl to Chillicothe Tuesday night, and after spending the night at the Haynes Hotel brought the girl back Wednesday evening in an intoxicated condition, leaving her near her home. They are said to have used Green's automobile.

The trip made by the deputy sheriff and patrolman was fruitless. Shoemaker, who is Green's chauffeur, was said to have been seen in the Sedalia neighborhood where he resides, since the alleged trip to Chillicothe. The officers visited the homes of his brothers at Sedalia and Danville and also the home of

## LARGE AUDIENCE ENJOYS CONCERT

"The Old Songs Concert," at the Presbyterian church Friday night was well patronized, the large audience pronouncing it one of the most pleasing and popular concerts of the season.

The program presented the beautiful old songs that never cease to charm and are endeared by memories and associations.

The entire program, opened by a Girls' Glee Club chorus, "Love's Old Sweet Song," was splendidly rendered.

One of the most taking numbers was "Old Black Joe" with Mr. Walter Sprenger impersonating "Joe" in an excellent make-up, and the other members of the male quartet, Messrs. Bowman, Kibler and Leland Haines, of Bloomingburg, singing softly the refrain.

Washington's popular violinist, Mr. James Kneisley, played "Old Folks at Home," accompanied by Miss Mabel Briggs, and the two musicians responded to an encore.

"Rocked in the Cradle of the Deep" was a marked number of the program, sung by Mr. L. L. Bowman, whose fine bass took the full deep tones easily. A quartet of mixed voices, Miss Ada Woodward, Mrs. Mary G. Burgett, Messrs. R. R. Kibler and Walter Sprenger, was extremely good and received a hearty encore after "My Old Kentucky Home."

Mrs. John McFadden gave beautifully a pathetic reading, "The Old Fashioned Mother," and a pretty little encore. "In the Gloaming" and "Juanita" were sweetly sung by Mrs. Mary G. Burgett and Mrs. Winnie W. Shoop gave a beautiful rendering of "Darby and Joan." Mrs. Shoop also sang the exquisite "Annie Laurie."

One of the prettiest of the concert numbers was the violin and piano rendering of "Massa's in the Cold, Cold Ground," by Miss Kessler and Mr. Kneisley, and Mrs. Maude Howland, of Bloomingburg.

Mrs. Howland did excellent work as the evening's accompanist.

The concert was given by the M. H. G. club, the social committee, Mrs. Frank S. Jackson, a most competent chairman; Mrs. Howland and Mrs. Arthur Leland, having it under successful management. The club was indebted to Mr. Homer Fortier for the piano.

## \$300 REWARD FOR BANDITS

At the Saturday morning session of the County Commissioners a reward of \$100 was offered for the arrest and conviction of the men who, during the night of February 26th, entered the home of Thomas Harper near Edgefield, and after firing nearly a score of shots, two of which struck members of the family, escaped with \$60.

Commissioner Weaver offered a resolution to pay \$200 reward, but a resolution to pay \$100 was offered by Commissioner Brown and seconded by Commissioner Perrill. The latter resolution was adopted, Weaver voting no.

Mr. Harper himself has offered \$200 for the capture and conviction of the thugs, and it is believed that the combined offers will produce the culprits, who are believed to reside in the county.

### Anne's Great Discovery

A Call That Made Her Sure About Her Own Heart.

By EMILY HODGES.

"You're very foolish and very headstrong, Maisie, and you're going to be sorry some day," Anne said severely.

She was sitting before the glass, putting cold cream on her face, and Maisie was watching her from the bed.

It was to pretty Maisie a very funny performance—Anne's nightly comforting of her complexion with cold cream. She wondered if she would do the same when she was thirty-six and unmarried. But she would not be unmarried at thirty-six. Of course not.

Now of a sudden Anne felt almost hatred for the gay little woman who seemed so happy in her married life and obviously had no need of cold cream or any other preparation for her charming face.

Anne was out of sorts all day. Her painting class did badly, her head ached, and she tore her walking skirt by stepping upon it in her hurry to take a car. Tired and utterly forlorn,

she was sitting in her room trying to repair the skirt when Maisie came running upstairs and entered panting with her haste.

"Oh, Anne," she gasped. "there's a man in the parlor waiting to see you! I told him you'd be right down."

A man in the parlor to see Anne was almost an unheard of thing. Yet she took three stitches deliberately.

"Aren't you going to fix your hair or anything?" Maisie demanded.

"Why should I?" Anne said. "It is only some one to see about lessons probably."

The parlor door was open, and she went in softly. The man was waiting with his expectant face turned toward her. She gave him one glance and turned as white as her linen collar.

"Dwight—Dwight Marshall!" she said. Then she seemed to remember nothing more until she found herself on the sofa, with him close beside her.

"You never expected to see me again, did you?" he demanded. "And I didn't expect you would, but ever since my little cousin, Maud Warne, has lived here she and Dave have been teasing me to come and make them a visit. So I made up my mind I'd come. And here I am. You don't know Maud, do you?"

"No," Anne said feebly, wishing she did.

"Maud told me you hadn't acted very neighborly. You should know Maud. She's one of the best little women that ever lived."

He had been talking rapidly. Now he stopped and drew a long breath.

"Do you remember the last time we saw each other? I was right mad that day. It had never occurred to me that I wasn't the equal of the best girl living—and you were that, too—until you said what you did. So I swore I'd make myself good enough—and make you sorry. But now that I've seen you I only want to make you glad, Anne. You see, I like you just as well as I ever did, though I didn't expect to. And if you like me—"

"Oh, Dwight," Anne sobbed, "I'm home and old and soured and—do themselves lifelong injury."

agreeable and narrow minded—and you're worthy of some one better."

Maisie had been in bed three hours when Anne came up and woke her with a kiss.

"Why, Anne, you look real pretty. Maisie said, yawning. "But your hair is mussed up awfully."

"Maisie," Anne said solemnly, sitting down upon the edge of the bed and taking hold of Maisie's hand in a most unusual way—"Maisie, I want to tell you something. I've been a fool for years and never found it out until tonight. And I don't mean you shall be the same kind of fool. That man who came tonight was the one I might have married sixteen years ago—and didn't. But I'm going to marry him now."

"And—and, Maisie, I've been talking to mother, and you can have Dick any time you are ready. Dick's all right. He—Dwight knows him; they come from the same place."

"I thought I could forget," Anne went on gently after Maisie's ecstasy of surprise and joy had somewhat subsided, "and I've tried hard for sixteen years, but when you really love there's no forgetting in this world. I've been loving Dwight right straight along, and the minute I saw him tonight I knew it. I've missed a good many years of happiness, and I meant to make you miss a good many years of happiness in the same way. It wasn't because I was wicked, dear, but because I didn't know now."

Maisie smiled wisely.

"I knew all the while," she said.

### PRACTICAL HEALTH HINT.

#### Shortness of Breath.

There are many ways in which shortness of breath may arise. It is often one of the symptoms of illness. When a person begins to complain of habitual shortness of breath it is important to have a physical examination made without delay. One reason is that tuberculosis often begins with no other symptoms than shortness of breath and a slight cough. If these cases are seen and diagnosed very early it is not difficult to arrest them.

The symptom is, of course, present in such troubles as pneumonia, broncho-pneumonia and pleurisy, which attack the organs of breath directly. Violent exercise naturally causes temporary shortness of breath. In the case of healthy people it disappears quickly when the exercise ceases. If it does not do so it is a good plan to have a careful examination in order to find out what is wrong. Young people sometimes persist in a favorite form of exercise after they have begun to notice their shortening of breath. In that way they may do themselves lifelong injury.

## STREETS AND ROADS IN BAD CONDITION

The rains again have placed the streets and public highways in very bad condition, particularly the highways, although some of the streets in this city are in such condition that they are shunned by the traveling public generally.

Some of the rural roadways, which a short time ago were badly cut through during the wet weather, are now in an even worse condition, and it is almost impossible to haul heavy loads over the pikes in many places.

Washington Faces Crisis In the Mexican Situation.

## ALLIED POWERS SEEK RELIEF

Mexico City on the Verge of Starvation and Carranza Commander Refuses to Permit an International Relief Committee to Aid the Needy. Merchants Who Refused to Reopen Stores Thrust into Prison.

Washington, March 6.—The American government is facing a serious development in the Mexican situation.

Mexico City is on the verge of starvation. General Obregon, the Carranza commander, refuses to permit an international relief committee, composed of wealthy members of the foreign colony, to succor the needy. "Mexico needs no foreign aid," the general is reported to have said.

All merchants who closed their stores have been ordered to reopen under threat of punishment. Three hundred of them, all Mexicans, have been imprisoned. The people of the city are living in terror of another evacuation, since Obregon has announced that he will not prevent looting or pillaging for food or money.

The Brazilian, British, Spanish and Italian ambassadors called separately at the state department, bringing pessimistic reports of the situation which corresponded to reports already received by the American government. The foreign diplomats suggested no solution.

Secretary Bryan announced that he had sent an urgent telegram to American Consul Silliman with instructions to lay the situation earnestly before General Carranza, so that General Obregon might be directed to accept the proffered aid of the foreign residents.

Freight service is suspended between Mexico City and Vera Cruz. Transportation facilities for relief purposes are being withheld by General Obregon on the ground of military necessity.

President Wilson was advised of all the facts as revealed in official messages and the reports from the foreign ambassadors. The president was reported to be studying the various phases of the question closely. Should General Obregon continue to refuse outside aid, drastic measures might be necessary, in the view of foreign diplomats. The situation is described by them as more intolerable than it ever has been since the revolutionary troubles began in the southern republic.

For the present, the outcome of the telegraphic correspondence with General Carranza will be awaited. Hitherto he has been reported as standing by all the activities of General Obregon, whose purpose, according to official reports, seems to be to force the lower classes to enlist in the Carranza army or starve.

## FRENCH ATTACK GERMAN SUBMARINE

Paris, March 6.—The following official communiqué was issued by the ministry of marine: "During the day of March 4 a warship belonging to the fleet of the second French light squadron attacked a German submarine of the U-2 type in the English channel. The submarine was hit by three shells and disappeared in the water without leaving any trace."

ever, and is very pretty, too, drawn in tight about the neck, and very cozy as well when the day is raw and damp.

Of course, with a costume casting such defiance to Jupiter Pluvius, an umbrella would be an anachronism, but habits are hard to break, and one must carry something, so there is a very smart swagger stick, all of pigskin, which is made just for that purpose—that the weather defying damsel may put the cachet of "chic" upon her costume.

For an afternoon stroll on a fair day we have the brown satin coat shown in No. 3. This is cut to hang loose across the chest, but is drawn in by a wide sash just below the hips. The skirt falls in two graduated flounces, both banded with the same silver fox fur which forms the wide collar and cuffs. The muff carried is also of the silver fox and is the flat kind with the animal apparently folded over in the middle with a meditative nose resting above the hands, while the long, fluffy tail hangs down below. The small round low hat of brown satin has a rim of the same fur at the top of the crown and two large fur-balls dangling over the right ear.

The walking costume in No. 4 will command itself to all pedestrians who want something to fit their peripatetic needs and at the same time be quite correct if they should happen, on their tramp through the park, to meet a socially inclined friend who wished to take them to tea—say, at the Plaza. This one is a happy combination of pink chiffon over blue, which in its turn covers a layer of lavender laid over pink, with an overdress of opalescent net in a deeply embroidered lace effect, with lacelike scallops at the bottom and up the front, this little frock is as shimmery a rainbow thing as was ever worn by a lucky girl.

In spite of all her troubles and her one great problem, Runaway June surely must feel a sense of relief from sorrow when she dons the evening gown here with presented in No. 5. Built on the lines of a high waisted baby dress, this is a very dream of a gown. Of pink chiffon over blue, which in its turn covers a layer of lavender laid over pink, with an overdress of opalescent net in a deeply embroidered lace effect, with lacelike scallops at the bottom and up the front, this little frock is as shimmery a rainbow thing as was ever worn by a lucky girl.

Baby puff sleeves that slip off the shoulder down on the arm with an ingenuous air of helplessness are aided in their task of keeping things up by a band buttoned on at the cuff. The revers are long and wide, and the fastening is quite low. A roll collar of georgette crepe gives a bit of relief to the monotone of the suit.

With this is worn an English walking toque of corded velvet in the same putty color as the overmantle and edged with beaver. A veil of nigro brown (tete de negre) is edged with a band of the beaver also. And this veil is one of the newest of "the very latest things," even with those who are always a day or two ahead of themselves. We have had the silk and the velvet band, but the edge of fur seemed to slip by, although why not on veils as well as lace blouses and chiffon gowns? It has come now, how-

ever, and is very pretty, too, drawn in tight about the neck, and very cozy as well when the day is raw and damp.

## TROOPS SENT NORTHWARD TO ENGAGE VILLA

Carranza's Adherents Preparing to Evacuate Mexico City.

El Paso, Tex., March 6.—General Alvaro Obregon, the Carranza commander in Mexico City, is preparing to evacuate the capital after stripping it of everything of value, and move his army north against General Villa, according to a German banker from Mexico City, who arrived at the border and told his story to the German consul, Max Weber. This man says an average of three trainloads of troops are arriving daily in Mexico City from Vera Cruz and that they are being shipped north in the direction of Queretaro and Irapuato, the southernmost city held by the Villa army.

Conditions in Mexico City are frightful, he says, on account of the lack of water and food. Many priests are still held prisoners in the national palace. Preparatory to the abandonment of the capital, all archives and papers are being taken to Vera Cruz, which Carranza has announced will be the

capital of Mexico for years to come. Frequent supplies of arms and ammunition are being received from Cuba and South American points.

This man charges that graft is rampant among the Carranza officials and asserts that while Mexico City is starving for bread and Vera Cruz is short of food also, much wheat confiscated by the Carranza officers is being exported to Europe from Vera Cruz and the officers are pocketing the money.

Washington, March 6.—The shooting championship of the military schools of the United States has been won by the New Mexico military institute of Roswell, N. M.

A porch swing in the lobby of a furniture store bore the sign, "Made in America."

Soon so many people gathered about the spot and began to laugh immoderately that one of the salesmen went out to investigate.

"What is the matter?" asked the store manager.

"A tramp is asleep in the swing," said the salesman, "and the sign is in his lap." —Judge.

Solons Condemned For Supporting Gallagher Bill.

Bellaire, O., March 6.—The miners' convention in Wheeling adopted a resolution to stand firm for 47 cents, and another resolution, condemning State Senators Moore and Howard of Jefferson and Belmont counties, respectively, was put through. Delegates from every local in the eastern Ohio coal field were present. The meeting was attended by national and state miners' officials.

Senators Moore and Howard were condemned for favoring the passage of the Gallagher bill, seeking to amend the Green anti-screwing law and provide new plans whereby operators and miners might contract for the mining of coal.

"We will remain on strike if it takes ten years to win under the run-of-mine plan," said J. Albasin, president of the fifth subdistrict, following

## REPUBLICAN CONFERENCE

New York, March 6.—Forty Republican business men of New York and other cities held a conference with National Chairman Charles D. Hilles and Secretary James B. Reynolds on the methods of giving their party a running start for the campaign of 1916. When the conference was over both Mr. Hilles and Mr. Reynolds said it was a gathering of business men, not politicians, and that no one connected with the Republican national committee had called it. It was stated that Mr. Hilles and Mr. Reynolds were simply there to advise the others from the standpoint of practical politics.

Discussion ranged over the whole field of Democratic legislation, with emphasis on the tariff, and of the Republicans' future, with emphasis on a debt inherited from the Taft campaign of 1912, which must be paid before the party can begin to fill its treasury for next year.

## BOYCOTT ON ALIEN LABOR

New York, March 6.—Following a meeting at which two-thirds of the contractors building the subway system and other contractors building public works were present, it was unanimously decided to ignore the United States supreme court writ of error which set aside the anti-alien labor law. Although the decision of the supreme court allows contractors to go ahead with their work with alien labor, the contractors decided not to employ any alien labor in the near future. They hope the bill sponsored in the legislature by Governor Whitman, invalidating the alien labor clause of the state constitution, will soon be passed and end their troubles.

Whatever may happen to the other nations whose swords are crossed in the great conflict that is now waging, no one expects that the destiny of the colossus of the north will be seriously interfered with. France may be overrun, or a similar fate may overtake Germany; Austria may disappear from the map, or the British empire may be broken up, but between Russia and any great harm still lie those impenetrable spaces where the armies of Napoleon lie buried—those armies that Europe has not forgotten. When the swords that are now clashing are put up and the game is over Germany and Austria or England and France may divide the present, but the future belongs to Russia. Circleville's representative five had a walkaway Friday night when it met and vanquished the local Y. M. C. A. basketball team on the Circleville A. C. floor. The score was 55 to 11 and the game poor.

Washington's trouble was lack of team work, and inability of players to adapt themselves to the Circleville floor, which is nearly twice the size of the local.

Schlaback, Peterson and both of the Smiths were out of the game and the handicap was appreciable. Washington was represented by Kier and Mobley, forwards; McClung, center and Hughey and Thompson guards.

### WILL SOON RESUME WORK ON NEW TANK

Just as soon as the weather permits a gang of men will resume the work of erecting the new water tank on the D. T. & I. south of Circle avenue.

The new tank will be completed by early spring and the old one on West Court, which long has been regarded as a menace to public safety, will be pulled down.

### CALLED TO COLUMBUS BY DISTRESSING NEWS

Mr. Wm. M. Campbell was called to Columbus Friday by the serious condition of his mother, Mrs. T. C. Campbell, of Bainbridge.

Mr. and Mrs. Campbell were in Columbus for a short stay at the Southern Hotel, where Mrs. Campbell was stricken with paralysis about two o'clock in the morning.

She was removed to the Mt. Carmel Hospital. There has been practically no change in her condition today.

Quite a number of townships in the county are said to have ignored the road dragging law, some claiming that funds were lacking. However, the law is imperative and lack of funds is not mentioned in the law requiring the dirt or mud roads to be drug at frequent intervals during the spring.

It is expected that Union township's mud roads will be ahead of any in the county this season as a result of the attention given, which costs so little.

### GIRLS PUT UP A GREAT GAME

HELD FAST COLUMBUS FIVE TO  
SMALL VICTORY — BOYS AND  
GIRLS BOTH PLAY AT WIL-  
MINGTON NEXT FRIDAY.

A defeat that might well be counted a victory was that of the local High school girls Friday night, when they held to a small victory the fast girls' squad from Worthington High, Columbus, which enjoys a reputation of having lost but one game in two years' playing.

The score was 9 to 3 and the game, every moment of which was close and exciting, was witnessed by a fair sized crowd of enthusiasts.

Miss Bessie Casey, guard, was Washington's star. By clever and constant work Miss Casey held to two fields Worthington's record basket thrower, Miss Pauline Kumler, and lightened the odds of defeat.

Next Friday evening the girls will accompany the boys' team to Wilmington where they will play the Wilmington High school girls, preliminary to the boy's game.

#### GERMAN PRINCES WAR VICTIMS.

The new Almanach de Gotha makes the statement that up to now seven German princes have been killed in the war—namely, Princes Frederick and Ernest of Saxe-Meiningen, Max of Hesse, Rudolf and Ernest of Lippe, Wolsath of Waldeck Pyrmont and Henry XLVI. of Reuss. It is also known that two members of the Imperial Russian family have died on the battlefield, but the Almanach mentions only one, Prince Oleg.

### ROAD DRAGGING UNDER WAY IN UNION TOWNSHIP

The first road dragging reported in this county this year was done in Union township this week, when S. L. Carr, who was named road dragging superintendent, was engaged in dragging the "mud roads" in what is known as district No. 1.

Just as soon as he can do so, Mr. Carr will drag all of the roads in the township coming under the road dragging law.

The opinion of those who have been engaged in road building for many years is that the dragging is of great benefit to the roads, and some of the township superintendents are planning to drag some of the main roads in order to eliminate the ruts and prevent water from accumulating and softening the crown or crust of the roadway.

Quite a number of townships in the county are said to have ignored the road dragging law, some claiming that funds were lacking. However, the law is imperative and lack of funds is not mentioned in the law requiring the dirt or mud roads to be drug at frequent intervals during the spring.
